All-in-one solution: integrated winder service from Voith

2013-11-28

Voith's winder service offers a convincing all-round solution as it covers all three areas, i.e. mechanics, automation and technology. Often, winder services are carried out by separate service providers because they are each only active in one of these areas.

Thanks to Voith's all-round service there is less coordination effort involved for the paper manufacturer who would normally have to liaise with a number of service providers. In addition, because Voith offers its services as flexible packages, every paper mill can tailor the scope of supply to its requirements. Ongoing inspection and servicing ensure that the winder is constantly in a perfect technical condition. In the process, potential defects are detected and rectified in good time before they can cause problems.

Services from Voith are offered in three packages: Basic, Comfort & Premium. Whereas the Basic package comprises all inspections and function checks as well as a consultation, the Comfort package also includes the servicing work and an annual safety check. The Premium package offers in addition all necessary maintenance tasks from planning through to implementation as well as technological advice, spare parts and measures to improve winder efficiency.

The problems that can occur due to inadequate servicing of the winder generally result in reduced production speed due to vibrations. The winding quality is also impaired. But now, with these coordinated service processes by Voith, winders can be inspected, maintained and optimized quickly and easily.

Further information is available on the Voith website at www.voith.com/paper. Voith Paper is also on [Twitter](#) and [YouTube](#).

Voith Paper is a division of the Voith Group and the leading partner to and pioneer in the paper industry. Through constant innovations, Voith Paper is optimizing the paper manufacturing process, focusing on developing resource-saving products to reduce the use of energy, water, and fibers. Furthermore, Voith Paper offers a broad service portfolio for all sections of the paper manufacturing process.
