Operating speed reached after only three days: start-up of Voith tissue machine in Indonesia

2014-04-11

PT Sun Paper Source in Sukoanyar, Indonesia, has successfully put into operation its new VTM 1, a tissue machine from Voith. The operating speed of 1,600 m/min was reached three days after start-up.

It is the first machine in Asia to feature a NipcoFlex T shoe press combined with a steel Yankee cylinder and a steam heated high-performance hood. With this project, Voith has thus succeeded in further strengthening its position with innovative technologies for the tissue sector.

The delivery included the approach flow system, the vacuum system, the VTM 1 tissue machine with a wire width of 2,860 mm, together with auxiliary equipment, MCS, DCS and QCS. The VTM 1 is based on a modular concept that in this case consists of a single-layer MasterJet Pro T headbox, the NipcoFlex T shoe press, a 16-foot steel Yankee cylinder, a high-performance hood and the MasterReel winding system.

The VTM 1 with shoe press, steel Yankee and high-performance hood from Voith is a very energy-efficient design. It allows high operating speeds and problem-free operation. In comparison with conventional press rolls, the dry content after the press with NipcoFlex T technology is up to 5% higher. That means that up to 20% of the thermal energy can be saved.

In order to be able to even better support Asian customers on site, Voith manufactures Yankee cylinders made of steel and Yankee hoods in China. Quicker local support is ensured by a competent team on site for all questions regarding tissue production.

PT Sun Paper Source is one of the leading paper manufacturers in Indonesia.

Further information is available on the Voith website at www.voith.com/paper. Voith Paper is also on [Twitter](#) and [YouTube](#).

Voith Paper is a division of the Voith Group and the leading partner to and pioneer in the paper industry. Through constant innovations, Voith Paper is optimizing the paper manufacturing process, focusing on developing resource-saving products to reduce the use of energy, water, and fibers. Furthermore, Voith Paper offers a broad service portfolio for all sections of the paper manufacturing process.

Voith sets standards in the markets energy, oil & gas, paper, raw materials and transport & automotive. Founded in 1867, Voith employs more than 43,000 people, generates € 5.7 billion in sales, operates in about 50 countries around the world and is today one of the biggest family-owned companies in Europe.
