Flow Link Systems wins award for renewable energy initiatives

2024-08-08

- Flow Link Systems, a Voith subsidiary, has been honored with the Solar Award
- Solar Award honors and encourages companies to strengthen the use of renewable energy sources to decarbonize industrial activities

COIMBATORE, INDIA. Flow Link Systems (FLS), a Voith subsidiary, is proud to announce that the company has been honored with an award recognizing its commitment to the use of renewable energy in industrial activities. This award underscores FLS's dedication to achieving a low-carbon footprint and promoting ecological sustainability.

FLS has made substantial efforts to integrate renewable energy into its energy mix. The company has focused on optimizing energy consumption and improving energy efficiency through continuous monitoring, measurement, and control. These initiatives have been crucial in reducing the carbon footprint of FLS's operations. "FLS is amongst the early users of renewables for its energy needs in India. The recognition has come in at the right moment for the commitment of the organization and the team to a small carbon footprint. This award is deemed special given the across-industry competition and FLS specifically belonging to an energy-intensive sector. We wish to continue this success journey of decarbonization in meeting corporate expectations," says Dr. Nithyanandan Devaraaj, Chief Executive Officer of Flow Link Systems.

About Solar Award

The award is given by EQ International Magazine with the participation across the industry to encourage the adoption of renewable energy sources to decarbonize industrial activities. By striving for low-carbon emissions, companies contribute significantly to ecological sustainability.

About Flow Link Systems

Flow Link Systems (FLS) commenced business in 1992 as manufacturer and supplier of industrial valves for overseas customers. FLS is a manufacturer of flow control products like valve, pump and compressor

parts, engineered components, fully assembled and certified valves for oil and gas, petrochemical, power, paper and pulp, mining & steel, water and other process industries.

About the Voith Group

The Voith Group is a global technology company. With its broad portfolio of systems, products, services and digital applications, Voith sets standards in the markets of energy, paper, raw materials and transport & automotive. Founded in 1867, the company today has around 22,000 employees, sales of €5.5 billion and locations in more than 60 countries worldwide and is thus one of the larger family-owned companies in Europe.

The Group Division Voith Paper is part of the Voith Group. As the full-line supplier to the paper industry, it provides the largest range of technologies, services and products on the market, and offers paper manufacturers integrated solutions from a single source. The company's continuous stream of innovations facilitates resource-conserving production and supports customers in significantly reducing their carbon footprint. With its comprehensive automation products and leading digitalization solutions from the Papermaking 4.0 portfolio, Voith offers its customers state-of-the-art digital technologies to improve the availability and efficiency of their systems in all sections of the production process.
