Voith Turbo celebrates 50 years in the U.S.

2025-06-03

YORK, Pa. Voith Turbo recently celebrated its 50th anniversary of the company operating in the United States. To mark its decades in the U.S., Voith Turbo hosted a special celebration in York, Pa. to honor the company's long history and recognize the employees who have made that history possible.

"A 50-year celebration is a rare moment to pause and recognize the collective contributions that have brought us to this moment," said Ralf Dreckmann, President of Voith Turbo, North America. "We want to thank our employees for their loyalty, hard work, and shared vision as well as our customers who make our business possible. Our 50 years of success sends a powerful message about Voith Turbo's dedication to operating in the U.S."

Over the past 50 years, Voith Turbo has consistently grown. Most recently in 2024, the York, Pa. Voith Turbo location celebrated a \$6 million workshop expansion driven by an increase in rail business where Buy America compliance is a critical component.

Voith Turbo began U.S. operations in 1975 in Appleton, Wisconsin. In 1979, the company moved their location to Allendale, New Jersey, and in 1987, they moved to York, Pennsylvania. As their operations continued to grow, additional workshop locations opened in Sacramento, California and Houston, Texas.

Today, Voith Turbo's U.S. operations specialize in the design, assembly, and service of high-performance power transmission equipment and solutions for a range of industries, including power, oil and gas, energy, mining, commercial vehicles, rail, and marine.

About the Voith Group

The Voith Group is a global technology company. With its broad portfolio of systems, products, services and digital applications, Voith sets standards in the markets of energy, paper, raw materials and transport. Founded in 1867, Voith today has around 22,000 employees, sales of \$5.6 billion and locations in over 60 countries worldwide and thus is one of the larger family-owned companies in Europe.

The Group Division Voith Turbo is part of the Voith Group and a specialist for intelligent drive technology, systems as well as tailor-made services. With its innovative and smart products, Voith offers highest efficiency and reliability. Customers from highly diverse industries such as oil and gas, energy, mining and mechanical engineering, ship technology, rail and commercial vehicles rely on the advanced technologies and digital applications of Voith.
