Voith appoints Denise Kurtulus to the Board of Management and as CEO of Voith Turbo

- Denise Kurtulus is appointed to the Corporate Board of Management of the Voith Group effective September 1, 2026.
- She will assume the role of CEO of the Group Division Turbo and be responsible for the global drive technology business.

Heidenheim, Germany, April 30, 2026. The Voith Group appoints Denise Kurtulus as CEO of Voith Turbo and Member of the Corporate Board of Management of the Voith Group effective September 1, 2026. She succeeds Cornelius Weitzmann, who left the company at his own request at the end of 2025. Until her appointment, Dirk Hoke, CEO of the Voith Group, will continue to manage the Group Division Turbo on an interim basis.

Denise Kurtulus joins Voith from Rolls-Royce Power Systems, where she was most recently responsible for the Marine and Mining divisions. She has extensive experience in drive technology, particularly in the areas of sales, service and strategic business development.

With her comprehensive industry knowledge, operational experience, and clear customer focus, she is ideally positioned to successfully develop the Group Division and strengthen its market position. Voith Turbo has a broad technology portfolio and a global customer base across key industries.

Prof. Dr.-Ing. Siegfried Russwurm, Chairman of the Shareholders' Committee and the Supervisory Board of Voith: "Denise Kurtulus has demonstrated her ability to quickly navigate complex markets and consistently translate them into operational strength. With her strong customer focus and deep industry expertise, she is the ideal person to align Voith Turbo even more closely with global market needs and sustainably strengthen the competitiveness of our drive business."

Dirk Hoke, CEO of the Voith Group: "With Denise Kurtulus, we are sharpening our focus on performance and competitiveness in the drive technology business. Our goal is to consistently align Voith Turbo with profitable growth, reduce complexity, and further increase execution speed. The decisive factor will be to make targeted use of market opportunities and continue to expand our strengths in service and system solutions. I am looking forward to working together."

"I am looking forward to this new role and grateful for the trust placed in me. Voith Turbo operates in a challenging market environment with clear requirements in terms of competitiveness and focus. My goal is to further develop the business in line with our market and customer needs and significantly expand our position in selected segments. Above all, this means setting clear priorities and leveraging our strengths to increase efficiency and enable sustainable growth," says Denise Kurtulus.

About the Voith Group

The Voith Group is a global technology company. With its broad portfolio of systems, products, services and digital applications, Voith sets standards in the markets of energy, paper, raw materials and transport. Founded in 1867, Voith today has around 21,000 employees, sales of € 4.8 billion and locations in over 60 countries worldwide and thus is one of the larger family-owned companies in Europe.

The Group Division Voith Turbo is part of the Voith Group and a specialist for intelligent drive technology, systems as well as tailor-made services. With its innovative and smart products, Voith

offers highest efficiency and reliability. Customers from highly diverse industries such as oil and gas, energy, mining and mechanical engineering, ship technology and rail rely on the advanced technologies and digital applications of Voith.
