Outstanding internship rating for Voith

2015-03-26

Heidenheim. Voith has been awarded four stars for its outstanding quality of internships in the latest Internship Review 2015 Germany published by the independent institute Clevis. This is the best possible ranking of a company. Hence, Voith is at the top of the ranking among other renowned companies such as Audi, Ikea or BASF. "We are delighted about this very good ranking. This result proves that Voith stands comparison with even better known companies when it comes to the quality of our internships", said Elvira Frey-Keddi, Head of University Programs and responsible for internships at Voith.

More than 7,500 interns had been asked to assess their respective companies in terms of product and brand image along with employer branding. Clevis has published its internship ranking since 2010. The goal of the survey is, among other things, to assess the quality of corporate internships and to honor top companies for their commitment.

Voith sets standards in the markets energy, oil & gas, paper, raw materials and transport & automotive. Founded in 1867, Voith employs more than 39,000 people, generates € 5.3 billion in sales, operates in about 50 countries around the world and is today one of the largest family-owned companies in Europe.
